

Lights Out (feat. Far East Movement)

Natalia Kills

I can see you in the dark
I see you hi-hi-hiding away
I can feel you in the dark mist
I know the little games you play I can read your dirty mind
Thinking you got sh-t, won't fly with me
Boy I'm on ya like a polygraph
Love too hard still
This is what I see I know you when you can't lie
No baby you can't lie
You run but you can't hide
I see you when you're pulling
The world over my eyes
The world over my eyes Lights out! (Go crazy, go go go, lights out, go crazy, go go go, go crazy) Boy I got a PhD
I got a masters in boy-ology
My sidekick psychi call her
What you wanna, but more
I'm on ya
Made you think that she's the one
And she'll wake up and there's you'll gone
You got the matrix in your head
Run it, run over, gather up, play it
But I know you when you can't lie
No baby you can't lie
You run but you can't hide
I see you when you're pulling
The world over my eyes
The world over my eyes Lights out! (Go crazy, go go go, lights out, go crazy, go go go, go crazy) Hide and seek
Made you peek
Put you to sleep, like Quashi
Wrapped by tie around your neck
That's what I call a freak on a leash
Help yourself, got my belt
Torn my pants, straight to hell
All my guns tired of kills
This must be how heaven feels I know you when you can't lie
No baby you can't lie
You run but you can't hide
I see you when you're pulling
The world over my eyes

The world over my eyes Lights out! (Go crazy, go go go, lights out, go crazy, go go go, go crazy)
