

# Safe Till Tomorrow (Brooks rmx)

[Morgan Page](#)

Get in your car  
Why don't you come with me  
in the night? Pick up the weight off your shoulders  
It's just you and me  
Tonight In everything you see  
Why don't you set it free?  
Cause when you close your eyes  
I feel it by your side Follow me inside your head  
We're letting go of everything they ever said Forget the world outside our covers  
We're safe till tomorrow  
Forget the world outside our covers  
We're safe till tomorrow We're safe till tomorrow  
We're safe till tomorrow  
We're safe till tomorrow  
We're safe till tomorrow I know our peace  
May not be permanent  
But we're here  
For now So I'll breathe you in  
Keep you with me  
Cause you always give me life In everything you see  
Why don't you set it free?  
Cause when you close your eyes  
I feel it by your side Follow me inside your head  
We're letting go of everything they ever said Forget the world outside our covers  
We're safe till tomorrow  
Forget the world outside our covers  
We're safe till tomorrow We're safe till tomorrow  
We're safe till tomorrow  
We're safe till tomorrow  
We're safe till tomorrow
