Boys Are Out Tonight

The Business

Living on the darkside, drinking cheap cyanide
spending my money before I get paid
doing my best to make ends meet
something to eat, something to drink
the backstreet filled with villinous laughter
running through life fast and faster
follow your team love `em so true
till saturday comes right back to youWe`re the boys out tonightThe week is wasted till the weekend comes
fighting for your team on the chicken run
concrete, metal, kicked and shoved
boy to man on sweat and blood
Bridge house drinking after the game
telling stories of how we fought for fameBoys are out tonightLiving on the darkside, drinking cheap cyanide
spending my money before I get paid
doing my best to make ends meet
something to eat, something to drink
the backstreet filled with villinous laughter
running through life fast and faster
follow your team love `em so true
till saturday comes right back to youWe`re the boys out tonightThe week is wasted till the weekend comes
fighting for your team on the chicken run
concrete, metal, kicked and shoved
boy to man on sweat and blood
Bridge house drinking after the game
telling stories of how we fought for fame
