

Lovething

ZZ Top

It must have been the way that she kissed me
Made me as weak as a lamb
Tastes so fine like French silk pie
Sweet as strawberry jam It could have been the thing that she told me
When she threw her wrench at my monkey Should 'ave been a cool scene
Like honey on a ripped queen
I thought it was a day dream
But it must have been a lovething I smiled at the way that she told me
"I just can't turn you a-loose"
She was a force majeure in her haute couture
I was howlin' at the moon That's when I jumped out of her window
Before my monkey could cook her goose Should 'ave been a cool scene
Like honey on a ripped queen
I thought it was a day dream
But it must have been a lovething It must have been a lovething Should 'ave been a cool scene
Like honey on a ripped queen
I thought it was a day-dream
But it must have been a lovething
