Mariachi

Chetes

I'll be the right hand
You'll be the left hand
You and me we make
A mariachi band
Standing on the corner
Waiting for the lights
When you're around I
Always feel alright
From the painted desert
Over to paris, france
I followed your pointed
Finger with my glance
And i've seen so much
More than I would see
If it was just me, just me
If it was just me, just me
First rehearsal
Was under a redwoodtree

And you brought lyrics and you
Handed them to me
And you said here you are
The only one who can sing this
And I felt kissed and I wondered
If it was just me, just me
What if it was just me, just me
Let's get this party started
Let's squeeze the lime
The mariachi life
Is really more than fine
You know i'll meet you
You know i'll be flyin' blind
At the appointed corner
At the appointed time
At the appointed corner
At the appointed time
What if it was just me, just me?
What if it was just me, just me?
