

# I.C.Y.M.I

Alex Isley

I.c.y.m.i.

By Alex Isley

I remember, fire in the winter..  
Being hot in December, hot like a mid-day in July..

Navy blue nights, brighter than the sunlight  
Wanna hold on but I, I don't wanna close my eyes..

Wanna have him like pictures, keep them in my mind..  
To remind myself how far you were

And if I can recall the way I feel right now, won't see this all as just a blur.

Cause you, got me in a space, I could never dream, nothing like a memory  
I'm going where I wanna be, so baby please, save the moment here for me

So I can go back back back right back, yeah  
I wanna go back back back right back, yeah

I never knew why, seconds minutes fly by..  
all these hours and I, wanna relive everyone..

Ohh every color, every single member, like a screen in sliver, with my baby we emerge. (inaudible) ??

Cause you, got me in a space, I could never dream, nothing like a memory

I'm going, where I wanna be, so baby please, save the moment here for me

So I can go back back back right back, yeah  
I wanna go back back back right back, yeah..

Back to stars at night, back to moon blue, back to the music, so I don't miss it.. hey..  
See it all in my eyes, I wanna keep this, can we repeat this, so I don't miss it.. hey

Cause you, got me in a space, I could never dream, nothing like a memory  
I'm going, where I wanna be, so baby please, save the moment here for me

So I can remember  
Fire in the winter  
Yeah..
