

The Sweets

Yeah Yeah Yeahs

Green shadow, water weight all over, all over me
The end will shelter me away from me
Can we meet again, meet and meet, and meet, and meet again?
Can ya fill the can if ya cant fill me? Who ya following? Who ya starting to move like?
Who ya falling for? Who ya falling for? Whose lies?
Who ya following, who ya falling for?
This sounds on your side Secret blue, purple, pink and green right over it
Oh, hold on 'cause the coldest hasnt fought yet
Well, if we meet again, meet and meet, and meet, and meet again
Can ya catch the can if you cant fill it? How will you want something to hit
With spinning again and again, and again? What's your crime? What's your crime?
Well, how will you want? How will she sit?
What's spinning again and again, and again
What's your crime? What's your, what's your, what's your, what's your
What's your crime, crime, crime?
What's your, what's your, what's your, what's your
What's your crime?
