Medeia

Insomnium

Where there once was love, only hatred now resides
Where I once had heart, only nothingness now dwelsGuilt-ridden shall be your days
Heart-rending your nightsBy starlight I rock to sleep my dearest ones
Under the cold sky I lull to rest my darlings
Good to ie in a bed of cloudberry flowers
Soft to dream on a moss-grown pillowBetrayed by one I loved, deceived by one I caressed
Cast into the dark, thrust into the endless nightBut even bitter is your fate
Way darker your pathFor nothing have I been by your side
In vain have i wasted this life
All that was fair has been marred now
All the love I gave you have emptied my heartSoon I'll be feeling no pain
sleeping in silent shade
The ones you cherist most
I'll take with me to my dreamsHaunted by your deeds
Wrapped into the grief
You are bound into this sorrow
Until the end of time
