

# Miracle

## Abandon All Ships

Love was meant to be durable  
But now my broken heart's incurable  
To her I feel so invincible  
I need a miracle Walk away and know you're never alone  
Your lips speak the words to my heart are unknown  
You think you own me step down from your throne  
Is this how it ends? Your true colours have shown I search for the good in your lies  
How can I compromise  
The feelings I keep down inside And I don't know why  
I feel so alive  
I made up my mind  
It's time  
This is goodbye Love was meant to be durable And I don't know why  
I feel so alive  
This is goodbye Love was meant to be durable  
But now my broken hearts incurable  
To her I feel so invincible  
I need a miracle
