

Hour of Darkness

Social Distortion

An hour of anger, an hour of love
This hour of confusion as I look above
Death, life as I've never seen before
One more trip like, that I'm in the mental ward These sights sounds are all around me
They grasp and they don't let go
The sirens, the cries, the laughter the sighs
I hear thee hour, my hour of darkness An hour of darkness, an hour that's passed
This life I feel just won't be surpassed
Death, life as I've never seen before
One more trip like, that I'm in the morgue These sights sounds are all around me
They grasp and they don't let go
The sirens, the cries, the laughter the sighs
I hear thee hour, my hour of darkness
