Kentucky Woman

Neil Diamond

Kentucky woman, she shines with her own kind of light
Look at you once in a day, that's all wrong, looks alright
And I love her, God knows I love herKentucky woman
She get to know you
She goin' to own you
Kentucky womanShe ain't the kind, make heads turn at the drop of her name
But somethin' inside that she's got turns you on just the same
And she loves me, God knows she loves meKentucky woman
She get to know you
She goin' to own you
Kentucky womanDon't want much, good Lord's earth beneath my feet
Gentle touch from that one girl and life is sweet and good
Ain't no doubt talkin' aboutKentucky woman
She get to know you
She goin' to own you
Kentucky womanDon't want much, good Lord's earth beneath my feet
Gentle touch from that one girl and life is sweet and good
Ain't no doubt talkin' aboutKentucky woman
She get to know you
She goin' to own you
Kentucky womanKentucky woman
Kentucky woman
