

On and On

Agnes

On and on

This love I feel for you goes on and on This world can be a scary place

And so much love goes to waste

One moment everything is clear

The next it all could disappear We need something to hold on to

I wanna be that thing for you

'Cause you're not in this all alone

Your heart has finally found a home (Chorus)

On and on

This love I feel for you goes on and on

It's something you can't lose

You're gonna find, this heart of mine

Will stand the test of time

On and on

Can't you see, this is where you belong

I've got so much to give

Let down your guard and let these arms

Shelter you tonight Words can be so hard to trust

They made a fool of all of us

Let your emotions be your guide

And go with what you feel inside I know that what I feel is deep

And when I play, I play for keeps

I know that you've been hurt so bad

But this is something made to last (Chorus) I can feel us moving

Closer by the minute

This is so amazing

Have a little faith and

Let me lead the way

I can promise you that (Chorus) x2
