

I Know You Too Well

Gloria Estefan

Baby, it's nothing that you've said
But I know it's not just in my head
You're changing, baby, and you don't think I see
I feel you drifting away, a little bit further every day
Don't tell me, baby, don't tell me it's just me I see it in the look that's on your face
Something's not the same inside
You can't keep it from me, no matter how you try 'Cause I know you too well, for you to ever think
You could tell me a lie, yes, I know you too well
No one knows you like I do and it's so easy to tell
When you look away, there's something you're hiding
I know you too well, too well Maybe the timing isn't right
Maybe I see the end in sight
Is it over baby, is it hurting you to stay?
Maybe you don't know what to do
You can't find a way to break the news
Think it over, baby, it hurts me more this way I'd rather have you tell me to my face
Than tell me every thing's all right
What you don't wanna say is there in black and white 'Cause I know you too well, for you to ever think
You could tell me a lie, yes, I know you too well
No one knows you like I do and it's so easy to tell
When you look away, there's something you're hiding
I know you, too well, too well I'd rather have you tell me to my face
Than tell me every thing's all right
What you don't wanna say is there in black and white 'Cause I know you too well, for you to ever think
You could tell me a lie, yes, I know you too well
No one knows you like I do and it's so easy to tell
When you look away, there's something you're hiding
I know you, too well, too well, know you 'Cause I know you too well, for you to ever think
You could tell me a lie, yes, I know you too well
No one knows you like I do and it's so easy to tell
When you look away, there's something you're hiding
I know you, too well, too well
