

# My Child

## Hooverphonic

Please come back to me  
My child  
Things weren't meant to be  
Without tears we cry  
Even though we new  
It did strike  
But this ain't no dream  
No, this is life  
And all the colours fade  
Leaving nothing more  
Than a black and white shade on an empty...  
Shore, a part is gone  
And sure we do long  
But black and white is so much more than nothing  
Oh nothing, at all

Please come back to me  
Please come back to me  
My child  
Yes, we do control a lot  
Yes, we do control too much  
Overwhelmed by disbelieve  
Left in shock  
Still our disbelieve is the  
Remaining lock  
And all the colours fade  
Leaving nothing more  
Than a black and white shade on an empty...  
Shore, a part is gone  
And sure we do long  
But black and white is so much more than nothing  
Oh nothing, at all
