

Love Me with Your Top Down

KIX

I got a midnight muscle and I'm cruising the town
Looking for a hustle with the top pulled down
Roll the loaded dice for a pink slip race
I'm diving in deep and I'm leading with my face
Rock me, roll me, love me
Love me with your top down
Rock me, roll me, love me
Love me with your top down
C'mon baby bring your girls along
Get in my back seat and
Love me with your top down
I'm a hole shot winner see my front end rise
My hands on her spinners as she closes her eyes
My tires screaming hot and I'm pleasing my pair
Finish line's coming and I'm fighting for air
Rock me, roll me, love me
Love me with your top down
Rock me, roll me, love me
Love me with your top down
C'mon baby bring your girls along
Get in my back seat and
Love me with your top down
I'm sure you've heard about Rosie
She's cruising all over town
She pulled me in with her story
Without making a sound
You know what she wants to do
When her top comes down
Rock me, roll me, love me
Love me with your top down
Rock me, roll me, love me
Love me with your top down
C'mon baby bring your girls along
Get in my back seat and
Love me with your top down
Love me with your top down
Love me with your top down
Love me with your top down
