

If You Could Only See

Cyndi Thomson

You come home uncompleted
Down and defeated, feeling all alone
You think your dreams are passing by you
And deep down inside you, you're running out of hope
If you could only see, what I see
 You'd see the man
 That you wished you could be
If you could only see, what I see in you
 You're my strength, the light that guides me
 The angel beside me, the path that I walk
 When I wake up, you're why I want to
The one I hold on to, when I start to fall
If you could only see, what I see
 You'd see the man
 That you wished you could be
If you could only see, what I see in you
 Wish I could make you believe
 In all that you are you don't have to be
 Everything to everyone, everybody's number one
'Cause baby you're everything to me
If you could only see what I see
 You'd see the man
 That you wished you could be
If you could only see what I see in you
