

# Bullets from Hell

## Destruction

Hate is all I feel  
Disgust is a disease no one can heal  
Frustration - no big deal  
This suckin' life can't be fuckin' real  
Salvation of our sanity  
Is what they preach to the silly humanity  
But greed and ignorance  
Knocks down the level of my tolerance  
I don't give a fuck if they endorse political crime  
The crap they preach is just like a bad rhyme  
Don't trust the one with the smile on the face  
Or you'll disappear without a trace  
Suffer from this curse - a verdict of my hate  
You won't forget this verse - you can't change our fate  
You won't forget this words - no one can tell  
Deep from my heart I shoot - bullets from hell  
Bullets - bullets from hell  
Bullets - bullets from hell  
Bullets from hell  
An ambush - I'm born to scream it out  
I ain't no preacher - there's no fuckin' doubt  
Listen - to this desperate words  
Understand - I hit where it hurts  
I don't give a fuck if they endorse political crime  
The crap they preach is just like a bad rhyme  
Don't trust the one with the smile on the face  
Or you'll disappear without a trace  
Suffer from this curse - a verdict of my hate  
You won't forget this verse - you can't change our fate  
You won't forget this words - no one can tell  
Deep from my heart I shoot - bullets from hell  
Bullets - bullets from hell  
Bullets - bullets from hell  
Bullets from hell  
See - the nightmares I bring  
Feel - the unholy sting  
Smell - the fragrance of decay  
Hear - my screams they will stay  
See - the nightmares I bring  
Feel - the unholy sting  
Smell - the fragrance of decay  
Hear - my screams they will stay  
Bullets - bullets from hell  
Bullets - bullets from hell  
Bullets - bullets from hell  
Bullets - bullets from hell
