

# Windows of the World

**MicBeatZ**

Just like a rose  
Without a thorn  
Defenses fade  
We've come undone  
Desire  
The answer for harmony  
This moment together  
We can see  
Deep into the night  
We're looking through the windows of the world  
(Underneath the sky)  
We're opening the windows of the world  
We stay afloat  
On the sea of storms  
The tides of time  
Carry us along  
Beginning  
And ending  
With what we know  
Surrender  
Emotions  
Here we go  
Deep into the night  
We're looking through the windows of the world  
(Underneath the sky)  
We're opening the windows of the world  
Beginning  
And ending  
With what we know  
Surrender  
Emotions  
Here we go  
Here we go  
Deep into the night  
We're looking through the windows of the world  
(Underneath the sky)  
We're opening the windows of the world  
We're looking through the windows of the world  
We're opening the windows of the world  
Windows of the world  
Windows of the world
