

Heart Failure

Deerhoof

Say what's the matter with you?
Knocking me out like you do.
You're kicking me boy, you're kicking,
It's like nothing seems to boom in your box, baby,
Nothing seems to boom in your box.

I sit on fences with my defenses and devices,
The pressure ices baby, tell me why's it so?

It's like nothing seems to boom in your box, baby,
Nothing seems to boom in your box.

Said boy why did you do that,
Said boy why did you do that?

I won't hurt you girl,
I won't hurt you girl.

Can you fix this heart failure,
Can you fix this heart failure,
'Cause if you can then I suggest you come do it, do it.
Can you fix this heart failure,
Can you fix this heart failure,
'Cause if you can then I suggest you come do it, do it.

Oops, was it something I said?
No, it's something with your head.
You better get that checked, better better get that checked,
It's like nothing seems to boom in your box, baby,
Nothing seems to boom in your box.

Straighten up boy now, when you gonna get this straight?
'Cause if you wait too late, I'll be gone away
It's like nothing seems to boom in your box, baby,
Nothing seems to boom in your box.

Said boy why did you do that?
Said boy why did you do that?

I won't hurt you girl,

I won't hurt you girl.

Can you fix this heart failure,
Can you fix this heart failure,
'Cause if you can't then I suggest you come do it, do it,
Can you fix this heart failure,
Can you fix this heart failure,
'Cause if you can't then I suggest you come do it, do it
'Cause if you can't then I suggest you come do it, do it

Can you fix this heart failure,
Can you fix this heart failure,
'Cause if you can then I suggest you come do it, do it,
Can you fix this heart failure,
Can you fix this heart failure,
'Cause if you can then I suggest you come do it, do it
'Cause if you can then I suggest you come do it, do it
