

Take It Back

Norah Jones

Won't you take me away from here
So I'll never find my way home
Well there's one missing part of me
And I'm afraid it's fine on it's own
And this time it's finally grown
For me to see
Now I see
Words spoken silently
I could never understand
How breath delivers such poison
To someone too weak to stand
And us can turn into mud
Out on the sea

In the sea
Take it back
Take it back
