

# Never Been Part II

Wiz Khalifa

Hundred thousand dollars, it may sound like it's a lot  
Really it's not to me, now grab some of this weed and roll this pot  
I had to speed up, cause all these niggas slow  
I probably won't be up in there if I ain't got an O  
Now I got my feet up cause I'm on top and niggas hoping that I stop  
But I'm just smoking, living life like in the movies that I watch  
In my Jacuzzi roll another doobie  
See what's new what's on Netflix, order another movie  
See I'm smoking the best shit  
Ma'fuckers ain't balling, so they're seeing the exit  
I stay on my job so you can see I'm up next  
Dawg I be going so hard, some say I'm needing some rest  
Got so much smoke in my lungs, it ain't supposed to be on my chest  
And niggas talk but don't even be on them jets  
Man they don't even seeing them checks  
But you can tell by how I spit it, nigga I be getting dough  
Take her all the places that she never been befo'(Don't give a fuck about the)  
Money, clothes, cars  
I've never been, this far  
And fuck that other shit that niggas talking 'bout  
I've never been, this high I'm in my Grand Natty, smoking on that granddaddy  
It got an odor like a motor running, fantastic  
Never the minor things, I'm moving on to finer things  
Yellow stone, diamond rings, Balmain designer jeans  
Chanel frames, Louis scarves, moving like the mob  
I'm getting money, so maybe baby come get a job  
So fuck them other bitches, we onto other business  
And fuck them other niggas, we at them dollar figures  
Versace chains, gold rollies, it's same game  
Racked up, shawty, RosÃ© bottles every day  
Sipping that purple stuff, twisting the pretty leaf  
Pull up in that Ferrari, this bitch in disbelief  
On the road to the riches, another crook in the castle  
Only fuck with my niggas, pray we all living lavish  
I pray we all living so lavish  
I pray we all living so lavish(Don't give a fuck about the)  
Money, clothes, cars  
I've never been, this far  
And fuck that other shit that niggas talking 'bout

I've never been, this high
