

Neverending

Fulgence

Neverending always, You will never end
Because You're always neverending
You were there before there was beginning
Always You were, You are neverending Here You are now with us
Here we are, found in You And this makes all the difference
This changes everything
Making our whole existence
Worth something, so we sing La la la la
La la la la Neverending always, You will never end
Because You're always neverending
You were there before there was beginning
Always You were, You are neverending Here You are now with us
Here we are, found in You And this makes all the difference
This changes everything
Making our whole existence
Worth something, so we sing Oh You make all the difference
Yeah, You change everything
You make our whole existence
Worth something, so we sing La la la la
La la la la
La la la la
La la la la La la la la
La la la la
La la la la
La la la la La la la la
La la la la la
