

Chasing Daylight

Makeshift Prodigy

Talking to ourselves,
and laughing at the rain.
Screaming from the rooftops,
like we we're insane,
We run through the streets now,
like we're caught in a lens line.
we run through the streets now,
chasing the daylight.

Im wide awake,
as they stars they shine, wide awake
As the sun it rises, ohhhhhh
chasing the daylight.
Im wide awake,
as they stars they shine, wide awake.
As the sun it rises, ohhhhhh
chasing the daylight.

Some say we're tongue tied,
and some say we might break.
We'll rest our worried minds,
and count on your mistakes.
We run through the streets now,
like we're caught in a lens line.
we run through the streets now,
chasing the daylight.

Im wide awake,
as they stars they shine, wide awake.
As the sun it rises, ohhhhhh
chasing the daylight.
Im wide awake,
as they stars they shine, wide awake
As the sun it rises, ohhhhhh
chasing the daylight.

Come on come on now,
Come on come on now,
Come on come on now.

Chasing the daylight.

Im wide awake,
as they stars they shine, wide awake.
As the sun it rises, ohhhhhh
chasing the daylight.

Im wide awake,
as they stars they shine, wide awake
As the sun it rises, ohhhhhh
chasing the daylight.
