# Close To Love

## Girls Aloud

Dust, dust, dust, dustGot so close to love
I can almost taste the kill
Barely close enough
But I could not make the dealGot so close to love
I can almost taste the kill
Barely close enough
But I just can't close the dealI was Snow White till I started to drift
Baby, I didn't care till I saw you there
And your manner made my animal kick
But I just didn't dare, call me crazy, yeahEverything I ever had to lose
Is standing in the way of me and you
Panic built these walls in front of me
And nothing but my head can set me freeMan, get up
We're gonna start this fire
Tangled up
Because I know I shouldCan't get up
Watch the flames go higher
Tangled up
We're gonna need more woodGot so close to love
I can almost taste the kill
Barely close enough
But I could not make the dealGot so close to love
I can almost taste the kill
Barely close enough
But I just can't close the dealDust, dust, dust, dustI'll confess, I'm in a real big mess
With the guy I love but I can't say, yes
Now my only bet is take a plane ride west
'Cause I can't regret what I ain't done yetMan, get up
We're gonna start this fire
Tangled up
Because I know I shouldCan't get up
Watch the flames go higher
Tangled up
We're gonna need more woodGot so close to love
I can almost taste the kill
Barely close enough
But I could not make the dealGot so close to love
I can almost taste the kill
Barely close enough

But I just can't close the dealMan with the chemical stare, hands off
Guy with the terrible hair, back off
Dude with the look in your eye, leave it
Man with the beautiful ride, beat it
