

# Walk On the Fire

[Edith Frost](#)

Advisory - the following lyrics contain explicit language:

I know you  
I've memorized your smell  
You hold me  
Underneath your spellYou'd teach me to walk on the fire  
You'd try to make a liar out of me  
So please let me know when the moment's real  
When you find out how you feelDamn this jealousy  
I know it all too well  
There'll be no secrets  
We can't begin to tellYou'd teach me to walk on the fire  
You'd try to make a liar out of me  
So just let me know when the moment's real  
When you find out how you feel
