Ready Or Not

Bee-Low

What is my destination?
Spinning so fast I can't slow down
I lose my head when you're around, yeah
Don't tell me to run away from this
Cause you've got the love I can't resist
How can I breathe?
How should I feel?
Holding me back
Baby what you do, what you do, what you do to me
Makes me want to be somebody I'm not
Every time you do, what you do, what you do to me
Take your chance boy, ready or not
Baby what you do, what you do, what you do to me
Makes me want to be somebody I'm not
Every time you do, what you do, what you do to me
Take your chance boy ready, ready or not
Take your chance boy, ready or not
Longing for inspiration

Somehow you turn me inside out
I need an explanation now, right now
Don't tell me to run away from this
Cause you've got the love I can't resist
How can I breathe?
How should I feel?
Holding me back
Baby what you do, what you do, what you do to me
Makes me want to be somebody I'm not
Every time you do, what you do, what you do to me
Take your chance boy, ready or not
Baby what you do, what you do, what you do to me
Makes me want to be somebody I'm not
Every time you do, what you do, what you do to me
Take your chance boy ready, ready or not
Baby what you do, what you do, what you do to me
Makes me want to be somebody I'm not
Every time you do, what you do, what you do to me
Take your chance boy ready, ready or not
