

# Silver Machine

Carmine Appice

I, I just took a ride on a silver machine and still feeling mean  
Oh, do you want to ride, see yourself going by  
The other side of the sky? You gotta know where I've been  
And it flies sideways through time, it's an electric  
line  
To all the zodiac signs  
I got a silver machine  
(Silver machine)  
I got a silver machine  
(Silver machine)  
I got a silver machine  
(Silver machine)  
In my silver machine  
It flies out of a dream, it's antiseptically clean  
You gotta know what I mean  
Oh, do you want to ride, see yourself going by  
The other side of the sky in a silver machine?  
I got a silver machine  
(Silver machine)  
I got a silver machine  
(Silver machine)  
I got a silver machine  
(Silver machine)  
In my silver machine  
I just took a ride on a silver machine and still feeling mean  
Oh, do you want to ride, see yourself going by  
The other side of the sky? You gotta know where I've been  
I got a silver machine  
(Silver machine)  
I got a silver machine  
(Silver machine)  
I got a silver machine  
(Silver machine)  
In my silver machine  
Silver machine  
Silver machine  
Silver machine  
Silver machine
