

# Days Like These

Janis Ian

On days like these  
When the rains won't fall  
And the sky is so dry  
That even birds can't call

I can feel your tears  
Disappearing in the air  
Carried on the breeze  
On days like these

It's years like these  
That make a young man old  
Bend his back against the promises  
That life should hold

They can make him wise  
They can drive him to his knees  
An' nothing comes for free  
On days like these

But you can't reap what you don't sow  
And you can't plant on hallow ground  
So let us fill this empty earth with hope  
Til the rains come down

In lives like these  
Where every moment counts  
I add up all the things  
That I can live without

When the one thing left  
Is the blessing of my dreams  
I can make my peace  
Yes, I can make my peace  
I can make my peace  
With days like these
