

All Over You

Level 42

the sap is rising
and there's no disguising
what I feel for you
so mesmerising
got me fantasising
nothing I won't do
parascending, whoa oh
but it's all depending
on your sky so blue
my wings keep stalling
from the sky I'm falling
and it's over - all over you
all over you
let me build a nation
that bears no relation to the one we knew
take inspiration
from my own salvation
'cause it's over - all over you
get on board the gravy train
off the rails if you don't keep me sane
justify the things I do
just believe that it's all over you
all over you
the sap is rising
and there's no disguising
what I feel for you
so mesmerising
got me fantasising
and it's over - all over you
through the heat-haze and the blue
I will shimmer and distort
and become what you always knew
but were never taught in this sad time
take on board the things I say
just be sure that you'll be mine someday
justify the things I do
just believe that it's all over you
all over you
the sap is rising

got me fantasising
so mesmerising
and there's no disguising
that it's over - all over you
