Punk Song #2

Silverchair

I live for yesterday, no one cares or understands
Don't feel pain, I'm made of steel
I can't answer you, if you ask me how I am 'cause I
I don't know just how I feel
I can't feel any pain you give me
But I'll take it and throw it away
I'm a hypocrite but that's okay 'cause I do like it
But I am careful who I burn
I am free falling with no parachute at all but
I don't have any concerns
I can't feel any pain you give me
But I'll take it and throw it away
I will kneel to any king you give me
But I'll tell you what I'd say
Why are you any better than anyone else?
Why are you so good?
Why are you any better than anyone else?
Why are you so good?
Go
Why are you any better than anyone else?
Why are you so good?
Why are you any better than anyone else?
Why are you so good?
