

Flight 601 (All I've Got Is Time)

Fenix TX

I think about the places I
Have been And What I've Seen And All the lessons I've learned in
between Twenty some odd years and nothing's changed I'm still the
Same still learning from this never ending dream This life teaches me
Keeps me dragging on and on But somethings wrong And I just can't
seem to figure out the scheme Another time might make me crazy But
all I've got is time Satisfaction never guaranteed I know you agree
It's best to live our memories And if I make it to the otherside
I'll be satisfied I'm never coming back for anything
