

Wish That You Were Mine

Manhattans

Intro: Waiter? Can we have the same table we had yesterday? Here we are again sipping our drinks just like friends

I wonder if they see the sparkle in your eyes
I wonder if they know that I am not your guy hmm
I wonder if they see that you don't belong to me
I wish that you could be mine (mine all mine) It'll be hard for him to understand
I am his friend and he's your man
I wonder what my lady would say
If she knew I met you everyday
Sooner or later don't you know
They're gonna find out and they'll hate us
I wish that you could be mine (mine, all mine)
