Hot To Destroy An Angel

Deadstar Assembly

I'll teach you how to destroy an angel
Cross a shadow across my face
It's the face of a young man
Let go a self-fulfilling dream
Even though it means alot to me
It doesn't matter I'm outta place
It's the place of a shunned man
Were givin wings
But then theyre taken away
I'll teach you how to destroy an angel
I'll teach you how to destroy yourself
Thats right
Cast the darkness across this place
It's the place of a dead man
Take a look into this casualty
Even though theres not much to see
It doesn't matter its all a waste
It's the fate of a shunned man
Were given wings
But then theyre taken away
Theyre taken away
Theyre fucking taken
You could destroy yourself
You should destroy yourself
I'll teach you how to destroy an angel
(there's nothing I cant get through)
I'll teach you how to destroy an angel
(there's nothing I cant see)
I'll teach you how to destroy an angel
(there's nothing I cant break through)
I'll teach you how to destroy yourself
