Our Time

Wendy McNeill

There's a rule in the book that says
It's got to be fun, yeah, yeah
I hate to admit but my feelings have changed, yeah
Everybody expects to hear a love song
Love can't come from something baby that never was
And I'm leaving behind, you in my mind
Though I know it's new, it's something I'll try
And I'll always remember the way that we cared for
Our time, our time
There's a time and a place where thoughts are discovered
A package of ten all the sheets that I need, yeah, yeah
What I call a gift can't be given to many
But loving a friend, baby, just ain't the same
Well I'm leaving behind the you in my mind
Though I know it's new, it's something I'll try
And I'll always remember the way that we cared for
Our time, our time, our time
Sorrow hangs like a halo, baby on my head
But regret will never fill my vacant heart, no
Well I'm leaving behind the you in my mind
Though I know it's new it's something I'll try
And I'll always remember the way that we cared for
I'm leaving behind the you in my mind
Though I know it's new it's something I'll try
And I'll always remember the way that we cared for
Our time, our time
