

White Sugar

Peter Frampton

Im riding on a see-saw, no easy by way
Mustnt let the day go, wasting on the highway of life, all my lifeIm feeling unclean, my stomach is shot
Preservatives hide out in all that we got
Dont ask again 'cause I dont know myself
Tinned spam and meatloaf do me right inWhite sugar
Evil as the day you were born
White sugar
Daylight murder that I mournIm feeling like a jigsaw, theres one piece a-missing
You call it frustration, baby, won the pools, couldnt get it in
Couldnt get it inManhattan pattern up on the wall
Lives on vitamins, I can hear you call
Big dapple apple, Im back in your grasp
Theres nothing left for me to do just have to fast, hey heyWhite sugar
Evil as the day you were born
White sugar
Daylight murder that I mournWhite sugar
Evil as the day you were born
White sugar
Daylight murder that I mournHey, Manhattan pattern up on the wall
Lives on vitamins, I can hear you call
Big dapple apple, Im back in your grasp
Theres nothing left for me to do just have to fast, hey heyWhite sugar
Evil as the day you were born
White sugar
Daylight murder that I mournWhite sugar
Evil as the day you were born, evil as the day
White sugar
Daylight murder that I mourn, that I mourn, that I mournWhite sugar
Evil as the day you were born, evil as the day
White sugar
Daylight murder that I mourn
