I Can Get Off On You

Eric Lindell

Take back the weed, take back the cocaine, baby
Take back the pills, take back the whiskey too
I don?t need them now, your love was all I was after
I'll make it by now, I can get off on you

I can get by on little or nothing at all,
I can get high baby, just thinkin' about your lovin',
Girl its true

Take back the weed, take back the cocaine, baby
Take back the pills, take back the whiskey too
I don?t need them now, your love was all I was after
I'll make it by, I can get off on you

Who'd ever thought tat this is somethin' I'd ever do
Spending my time, baby just mellowing out on you and your good lovin?
Take back the weed, take back the cocaine, baby
Take back the pills, take back the whiskey too
I don?t need them now, your love was all I was after
I'll make it by, I can get off on you

Take back the weed, take back the cocaine, baby
Take back the pills, take back the whiskey too
I don?t need them now, your love was all I was after
I'll make it by, I can get off on you

Take back the weed, take back the cocaine, baby
Take back the pills, take back the whiskey too
I don?t need them now, your love was all I was after
I'll make it by, I can get off on you
