estrogen

yeongrak

Hey mister, where are you goin'?
The night has just begun and the ladies want more
He says, I'm tired of this jokin'
The girls make sad so I'm leaving that fad aloneHe's givin' up women
Chicks, females, and sex, ooh
Soon, he'll see
That solitaire will make him want to screamI want some Estrogen
I need some Estrogen
Gimme gimme your Estrogen
I need your EstrogenAre you sure everything's workin'?
You're gone from the girls, but it looks like you need them back
You say that everything's perfect
But the look on your face says you want another taste
Of a lady on your lapHe's givin' up women
Chicks, females, and sex, ooh
Soon, you'll see
That solitaire will make him want to screamI want some Estrogen
I need your Estrogen
Gimme gimme some Estrogen
I need your EstrogenGimme gimme gimme some ladies
Gimme gimme gimme some ladies
Gimme gimme gimme some ladiesGimme some, gimme some
Gimme some, ladiesI want some Estrogen
I need your Estrogen
I do need your Estrogen
I need your Estrogen, EstrogenGimme gimme gimme some ladies
Gimme gimme gimme your
Gimme gimme gimme your, yeah, yeah
