

# My Revenge

Ne-yo

I couldn't involve my feast  
watchin' them laugh, watchin' them kiss  
told me she'll be back in town on the 25th  
it's the 22nd and there she is  
and i know his face but not his name  
he's the guy that wears too much cologne from the bank  
i won't cause no scene or do nothin' crazy, cuz i ain't  
but i guarantee that she will feel my pain  
chorus:  
so sweet, so sweet, my revenge  
think it's gonna rain  
beware, dark clouds rollin' in  
think it's gonna rain  
she's got a friend that hangs around  
cute little Spanish chick that stays uptown  
very flirtatious, told me multiple times without words she'll let me put it down  
but i kept my distance  
i had respect for my queen and her crown  
well as it turns out my queen is a town whore  
so there ain't no since in respectin' her, no not no more  
so i tell the little spanish chick "will you wait here"  
stopped by the store  
get a bottle of patron i got the magnums and the Camcord'  
chorus: x 2 and when the package comes she'll be so  
surprised  
i'm doin things to her friend that she could only fantasize about  
cuz we never tried, hope the tiers that fall from her eyes  
burn down the house with her inside  
bitch!
