Advisory - the following lyrics contain explicit language:

(Hang on)
Got to go
Preview what they oughta know
Keep your head down and fucking die(Wake up)
Rise and shine
Gotta take another pint
Dig your heads and watch out for the nightWhen the sun comes down
And the moon comes up in the sky
The battle of the day and the night
Kill(Kill, kill, kill)
Go fuck another one
Candlelight burns in a wood so highOn a carpet
(Flying high)
Take it down to the other side
The way beyond it may lieWhen the moon comes up
And is rescuing under the night
The reaper is on the other side, let's goBodom after midnight
Bodom after midnight, yeaBodom after midnight
Bodom after midnight, yeaKillBodom after midnight
Bodom after midnight, yeaBodom after midnight
Bodom after midnight, yea
