

# Dairy Queen

## Dwarves

She was my Dairy Queen, my Dairy Queen  
Well life was just a Sunday drive  
To see the neon in her eyes  
She had to be so wild and free  
Just like the radio playing on me  
She was my Dairy Queen  
My Dairy Queen  
Well in that week, the week of the fleet  
The parking lot was at her feet  
The sun went down, a train came 'round  
And she went down on every guy in town  
She was my Dairy Queen  
Well everything in this whole world  
And every flavor was inside that girl  
Then came the day she couldn't stay  
It was the day that she melted away  
She was my Dairy Queen
