Time Machine

Amy Kuney

Verse 1:
Look, Ive built a time machine
To take us back to when
Your favorite word was please
And mine was always yesVerse 2:
Grown-ups and no no words
They spelled over our heads
Well go back with all weve learned
And translate what they saidBridge:
Well fast forward a year or so
We cant wait here we have to know
Will we still be each others or alone?Verse 3:
So on the count of three
A year from now tonight
We'll both turn in bed to see
Who could be sleeping on the other side
