

# Hard Believer

## First Aid Kit

So you ask for my opinion well what is there to say  
To be honest and just foolish won't make you want to stay  
You've got to go on and get moving and I can't do that for you  
Got so many plans and so much you want to do

Love is tough, time is rough  
On me

Well I see you've got your bible your delusion imagery  
Well I don't need your eternity or your meaning to feel free  
I just live because I love to and that's enough you see  
So don't come preach about morality that's just human sense to me

Love is tough, time is rough  
On me

And it's one life and it's this life and it's beautiful

Love is tough, time is rough  
On me
