## Public Image Ltd.

Under the house  
Under the house  
It came out of the wall  
A single cadaver(Under the house)  
It went under the house  
Scream in the trees  
Under the moon(Scream in a dream)  
Solid the grave  
(Vile stinking)  
Stone cold ambitionSolid and gross  
It went under the house  
It's not the sun I wear as a crown  
I colour the cloudsUnder the house  
Solid the grave  
Stone cold ambition  
(Solid discreet)It came out of the wall  
A single cadaver  
It went under the house  
A scream in the treesUnder the moon  
Ages apart  
Under the house  
It's not the sun I wear as a crownI follow the clouds  
Under the house  
Scream in the trees  
Under the moonIt came out of the wall  
A single cadaver  
It went under the house  
The jugular bulge ripsSteal if I could  
Under the house  
(Ages apart, under the house)  
Scream in the trees(Stone cold ambition, solid discreet)  
Under the moon  
(Under the house)  
It went under the houseUnder the house  
A scream in the trees  
Under the moon  
The vile stink in my nostrilA single cadaver  
(Stone cold ambition)  
It clouded out of the wall

Solid disgrace(The smoke is a float)  
It's not the sun that I wear as a crown  
(Every breeze brings disease)  
Ages apartUnder the house  
Mercenary
