

Galaxy Paradise

Stevie Wonder

You are so unpredictable

When I am not

You are so irresistible

That I can't stop

You say my name

And I start walking on heavenWhat flying saucers did you come here on?

What extraterrestrial planet are you from?

You're much more than life

You're from galaxy paradiseWhat flying saucers did you come here on?

What will they say when they find that you're gone?

Say, you'll stay in life

Queen from galaxy paradiseYou are so unforgettable

And I will not

Our love's far more than sensual

And twice as hot

You touch my hand

And I know that we'll love foreverWhat flying saucers did you come here on?

What extraterrestrial planet are you from?

You're much more than life

You're from galaxy paradiseWhat flying saucers did you come here on?

What will they say when they find that you're gone?

Say, you'll stay in life

Queen from galaxy paradise
