Slow Love

Tweedy

Slow love is the only love
Slow love is the only love
Slow love is the only love
Slow love is the only love
Slow love is the only love
Slow love is the only love
Slow love is the only love
Slow love is the only love
OhhhhhhhhhhhhhhhhhhhAnd so it was on one cold night
In the middle of a lonely life
And so it was you found my door
And though it wasn't open
O, I had never seen it beforeSo it was we fell in love
What would you call when it rises up
Or what to call it but falling in love
I never needed to know what it was
You never needed to know what it was
We never needed to know
OhSo it was that it was there
A part of us as real as the air
I never needed to know what it was
So it was that it was there
A part of us as real as the air
I never needed to know what it was
No love is the only love
