

# Gettin' Lucky

Paul White

Gettin' lucky is the name of the game  
What you call it, it all means the same  
Put on your good looks and your dancing shoes  
Go downtown and try to shake those bluesBut you know, another night  
Another number, gettin' luckyTryin' the hot spots with the bright funky lights  
Look for the love and stay out of the fights  
Talk to the people but you know that it's true  
Even if they like you, the joke's on you'Cause you know, another night  
Another number, gettin' luckyLivin' in a dreamy world that's full of tinsel and glitter  
When the morning comes, why are you always so bitter  
You know what you're gonna find and you know I'm right  
You'll come home with a number from another nightLivin' in a dreamy world, full of tinsel and glitter  
When the morning comes, why are you always so bitter  
You know what you're gonna find and you know I'm right  
You'll come home with a number from another nightGivin' it up, would be the easy way out  
Only thing you'll do is sit and pout  
You've got to fight it, hold your head up high  
Even if it never works, you know you tryBut you know, another night  
Another number, gettin' luckyBut you know, another night  
Another number, gettin' lucky  
Gettin' lucky yeahWhat's your number?  
I don't know  
Are you a winner?  
Oh Lord, I'm a winner  
I keep on tryin', tryin', tryin', yeah ohh  
I got to get that numberOoh gettin' lucky yeah  
I just need some  
Ooh, gettin' lucky  
Ooh, gettin' lucky  
Ooh, gettin' luckyThat's the name of the game  
Ooh, gettin' lucky  
I keep playin' now, yeahOoh, gettin' lucky  
Ooh, gettin' lucky
