

Prelude: Fly

[Lee Ann Womack](#)

Fly, wish I could fly with you
High, just like the angels do
I know it's wrong, to long to be gone
But I do wish I could fly with you
Tonight, tonight you see stars below
A sight, one which you've come to know
It may be a ways away but someday
I hope to see the stars below
Water the fields 'til the well runs dry
Hang all tomorrows out on the line
Wade in the water 'til the rivers do rise
Somewhere between I'll find time to dream
Fly, wish I could fly with you
High, just like the angels do
I know it's wrong, to long to be gone
But I do wish I could fly with you
