Without

Fabric

O shove it

Wait
I didn't see it coming
I took one last look around
The machines were out of order
The machines are out of order
Wait
I never paid attention daydreamin' til the end
I need a second dose of childhood
I need a second dose of childhood

I gotta get gone, get outta the rain
I gotta get gone, get outta the rain
I gotta get gone, get outta the rain
I gotta get gone get gone

I'm feelin'
No meaning without you
I've lost all of myself
I'm searching for the reason without you
Why can't I just pretend to keep feelin'
Keep breathin'
To save me from myself
(To save me from myself)

Wait
I can't behave now I sit around Imp such a mess
Looked around there was no one else here
(I looked around there was no one else)
Wait
I can't get the wrong blade
I lift up okay to go
want to make my lunar orbit
I try my best to absorb it

I gotta get gone, get outta the rain
I gotta get gone, get outta the rain
I gotta get gone, get outta the rain

I gotta get gone get gone

I'm feelin'
No meaning without you
I've lost all of myself
I'm searching for the reason without you
Why can't I just pretend
To keep feelin'
Keep breathin'
To save me from myself
(To save me from myself)

(I gotta get gone
Get outta the rain
I get gone
Get outta the rain
I get gone
Get outta the rain)
I gotta get gotta get
Gone
Gotta get gone
Gotta get gone
I gotta get
Gone

I'm feelin'
No meaning without you
I've lost all of myself
I'm searching for the reason without you
Why can't I just pretend
To keep feelin'
Keep breathin'
Save me from myself
