

Can I (feat. T.I., Young Thug)

DJ Drama

I can take it to Ibiza
We be livin' in our own world
Yeah can take you to the room, I can take you to the moon
But first can I take you home girl
Yeah I can take you to a mansion
Remove the load from your shoulders
Girl I can do a diamond ring, I can do a lotta things
But first can we do ya home girl?
Can we do your home girl?
Yeah I can take you to your destiny
Yeah I won't let you get the best of me
She get undressed then she undress a G
Take me a private flight to Canada
Bae I got stamina
Bae let's have a deep stroke
Let's have a candlelight baby, let's have some fun with it
I ain't no officer but I'ma keep my gun with me
I'm a big loaner bitch, you know I keep trust funds with me
Woah, lil bitch I keep your bonds with me
Woah, she got a son with me
She in the back of the Jeep and she say she done with me
I like to cum on her titties, tell her these all our kiddies
Remote control our life, I love to remote control it
If I get low, I know how to get up and go get bricks
These bitches love my dog ass, yes-yes, I call 'em ticks
And thats it
I can take it to Ibiza
We be livin' in our own world
Yeah I can take you to the room, I can take you to the moon
But first can I take you home girl
Yeah I can take you to a mansion
Remove the load from your shoulders
Girl I can do a diamond ring, I can do a lotta things
But first can we do ya home girl?
Can we do your home girl? Nothin' better to me I say
Than to ride on a sunny day
Pretty bitch right beside me
I'm ridin' clean and my nigga Ike on Camelton in a new Benz
V12 sit before it dropped and the truth is

If I were back in '95
I'd have gave my life for that ride back then
Since then I've had 10, swear to God
Never mind that, girl I see in your eyes
You wonder how It feel havin' me in your thighs
Have you spittin' on that pussy, just fit it aside
My room 8 freaks, one nigga inside (thats me)
I got 'em all screamin' and hellorin'
Comin' in unison, lookin' surprised
I don't know why she surprised
Cause when she came up in the crib it look like fantasy island
Why you think I got this big ass house?
Why you think I got this big ass bed?
Why you think I got this big ass shower?
And Ciroc coming out of my water fountain?
Tell you some of that make your day go better
Throw a bankroll on you if you say "no, never"
She wanna eat her, she's gonna let her
Her boyfriend callin' man, he know better her
We stuck in place, I can take your place
You can just consider this a paid vacation
Cause you work for me now and I pay daily
Your job bringin' me naked lady
And my job fuckin' till they can't take it
Then skeet on their faces
Might video tape it
But I bet it ain't gone be no shower rods in the
Places ima take ya, sorry MiMi (Faust)I can take it to Ibiza
We be livin' in our own world
Yeah I can take you to the room, I can take you to the moon
But first can I take you home girl
Girl I can take you to a mansion
Remove the load from your shoulders
Girl I can do a diamond ring, I can do a lotta things
But first can we do ya home girl?
Can we do your home girl?Can we, can we
Can we, can we do your home girl?
Can we, can we do your home girl?
