

We're All Equal In the End

A Global Threat

voice of televangelist to moms and dads at home
who will your kids listen to and who will they ignore?
tell them lies and feed them shit, don't those homos make you sick?
but are you gonna follow, or are you gonna lead?
we're all equal in the end
voice of white supremacist to moms and dads at home
who will your kids listen to and who will they ignore?
tell them lies and feed them shit, don't those niggers make you sick?
but are you gonna follow, or are you gonna lead?
we're all equal in the end
no voice of televangelist
we're all equal in the end
no voice of white supremacist
we're all equal in the end
this is our voice, this is it
we're all equal in the end
